OBLIGOR: _____________________________________________
OBLIGEE: _____________________________________________

This schedule is for use when employment income must be imputed to the obligor who is unemployed or underemployed. Presumption of underemployment exists if the obligor's gross income from earnings is less than the greater of 60% of statewide average earnings for persons with similar work history and occupational qualifications, or 167 times the federal hourly minimum wage. A source of information for data to use in imputing income is "Employment and Wages by Occupation," a publication by Job Service of North Dakota that contains wage and salary information by region and select cities. The publication is available on the Job Service website and is updated annually.

1. **Statewide average earnings:**
   Occupation: _____________________________________________
   Source: ________________________________________________

2. **Imputed income – general rule:** -07(3)
   a. 167 X federal minimum wage .................................. X 12 = __________
      ($7.25 per hour .......... $1,211)
   b. .6 X statewide average earnings as determined in #1 above .......... X 12 = __________
   c. .9 X obligor's greatest average gross monthly earnings in any 12 consecutive months included in the current calendar year and two previous calendar years
      __________________________ X 12= __________

   Greatest of a through c: ....................................................

   **Less:** Actual gross annual earnings ...................................

   **Presumed Imputed Annual Income:** ..................................
3. **Obligor noncooperation in establishment or review proceedings**: -07(6)
   In proceedings to establish or review a child support obligation, if the obligor fails to furnish reliable information on income and if that information cannot be reasonably obtained from other sources, income is imputed at the greatest of:
   a. $167 \times$ federal minimum wage \( $7.25 \times 12 = \) $1,211
   b. $1.0 \times$ statewide average earnings as determined in #1 above \( \times 12 = \)
   c. $1.0 \times$ obligor's greatest average gross monthly earnings in any 12 consecutive months included in the current calendar year and two previous calendar years \( \times 12 = \)

4. **Exceptions**: Review subsections 4, 5, and 7 of section 75-02-04.1-07 for other exceptions to the imputation of income based on the general rule above.
